

... So YOU are going to appear in our next edition!

Congratulations!

Here is some important information about how you can make your photographic session the best possible experience.

Preparing for Your Photo Day

TIPS for a GREAT Photo Session:

Keep it Classy!

Wear clothes that are simple, yet flattering.

Look Your Best.

Set your hair, take a long bath, brush your teeth, treat yourself good so you look your best on photo day.

If you feel confident, you will exude confidence.

Fashion Faux Pas.

Try to avoid plaid, striped, or overly complicated prints/patterns.

Leave the clowning to the circus!

Dress Accordingly.

Be prepared to do both indoor and outdoor photos.

Being uncomfortable is no fun for anyone.

Punctuality Matters!

Our photo shoots usually last no more than 20 minutes, so please try to be punctual, and we will as well. Our photographers must stay on schedule.

We value your time and your willingness to participate in the photo.

It's About You!

Think of some activities/hobbies you enjoy that would provide an interactive photo opportunity.

We want to see you happy and having fun!

"Luna"

Woof! Meow!

Pets always make a cute addition to a photo! If you have a furry friend, prepare him or her for the shoot as well.

"Pumpkin"

Fun Fact: "Luna" and "Pumpkin" are also a part of the Florida Health Care News team!

Meet the Photographers

Marc Edwards

Marc Edwards has been with the Florida Health Care News team for almost three years. He is a true professional and loves his suspenders!

Nerissa Johnson has been active in the photography industry since 2002.

Nerissa Johnson

Your photographer will be on time. Please make sure you are available.

Who Do I Contact?

Brian Levine

We will need your email address and contact information when we call to schedule your photo day.

Michelle Brooks

Contact Brian Levine or Michelle Brooks for more information

Toll Free 888.714.6728

How Can I Purchase My Photos?

www.zenfolio.com

Your photographer will give you more information and explain to you how our photo purchasing program works. If you place an order, you can expect a prompt return on your investment.

Your session's photos are presented through a customized website link in an online portfolio with the same precision and attention to detail that goes into taking them.

Bring a Smile and a Positive Attitude!

Think about all of the positive changes you enjoy after regaining your health, and remember that is the reason we are taking the photo.

Remember your testimonial may be a life-changing experience for a reader of Florida Health Care News who is facing similar health issues, and your story can aid them toward the best treatment options.
